

iPad Charge & Sync Cabinets

Compact, economical and with cable retention

The zioxi iPad and Tablet cabinets provide the ability to smart charge & sync 10 iPads and USB tablets - with USB cables presented but retained at the front. Also available in Charge only versions for 4 and 12 iPads and tablets.

Key features:

- Apple MFi certified, UK designed & manufactured, intelligent universal charge & sync (with the option of sync over Ethernet)
- Charge & sync electronics has firmware which can be upgraded (free of charge) when necessary to accommodate new Apple iOS & Configurator versions and any new USB devices
- Large shelf size to accommodate any standard case design
- Cable management presents only a short length of retained USB cable at the front - so cables are all neat & tidy, Very simple to connect and can't go missing
- Lockable door folds back 270 degrees, so right out of the way
- Choice of solid or glass door
- Choice of key, digital code or RFID access card based lock
- Pilot fixing holes provided for securing to a horizontal surface (fixings not supplied) or optional wall mount bracket with security bolt kit
- Smooth, easy to clean surfaces

iPad Charge & Sync Cabinets

Shelf dimensions:

The iPad Charge & Sync Cabinets are designed to accommodate all iPad variants, USB Android and Microsoft Tablets and eReaders in any combination. The shelf slot size (mm) is 310d x 210w x 37h —big enough for pretty much all devices, even in their cases, but best to check your device & case dimensions before ordering (don't forget to allow for the power connector).

Construction	White melamine-faced MDF carcass and doors, extruded plastic shelves, green metal electrical compartment door.
Charge & Sync models	Requires 1 power socket (UK and EU supported, others by request). Intelligent, universal charge and sync technology detects each connected device and determines the optimum charge settings - so each device will charge just as fast as if it were plugged directly into its charger. Supports any device which is USB chargeable. Sync connection to a host laptop or PC is via 1 USB cable - the host sync connection USB cable is supplied. <i>(Individual iPad & tablet USB cables are required but not included).</i>
Charge only models	Requires 1 external power socket. The Charge only cabinets support integrated mains power adapter & plug designs for UK, EU and other country plug sockets. Not suitable for Tablets which have a separate laptop "brick" style power adapter (the ziox Chromebook Charging Cabinets are good for these).
Warranty	5 years (2 years for electronics)
